

The Little Country Information Sheet

The Little Country School opened in September 2001. We operate as a unique Montessori -enriched for children ages 3.8 thru to our Elementary classroom. Our program emphasizes children exploring, manipulating and experiencing the world around them through hands on exciting and stimulating activities. A large aspect of the program is the natural world around the children and exploration of this world.

The Montessori method aims for the fullest possible development of the whole child as a preparation for life. Although we are a fully functioning Montessori program, we also feel it very important that children be exposed to different methods of learning and other teaching techniques. Through careful curriculum planning , we feel we offer the “best of both worlds”- a Montessori program in a traditional kindergarten program.
